Gunnar Schjelderupsvei
Oslo, Norway

SKILLS

- UI and integrations development
- Technical design and documentation
- Agile methodology and cross functional teams
- Detail-oriented

LANGUAGES

- English (Fluent)
- Norwegian (Fluent)
- Spanish (Mother tongue)

PROFILE

Full-stack developer with 8+ years of experience building web applications and AI-powered systems. Specializing in React on the frontend and Python on the backend, with hands-on experience designing and deploying multi-agent AI architectures, RAG pipelines, and REST API integrations in production environments.
Focused on delivering end-to-end solutions — from responsive user interfaces to scalable backend services and cloud deployments. Self-directed and collaborative, with a track record of working across product, design, and engineering teams to translate complex requirements into clean, maintainable, and high-performing systems.

WORK EXPERIENCE

Estudio Tributario Canarias — 2025 - PRESENT

Fullstack & AI Developer

- Development of responsive frontend interfaces using React and Material UI.
- Consolidation of two Joomla websites into a brand new single WordPress site.
- Implementation of a two-service RAG platform consisting of an Orchestrator and a RAG Agents
- Wordpress integration with RAG agentic system.
- Documentation site with Astro framework and Docusaurus.

Sopra Steria Norway — 2022 - 2024

Senior Software Engineer

- Analysis of existing ITSM processes and integrations finding replacement solutions.
- Design and development and test of tailored applications.
- Automating and streamlining manual processes with Flow Designer and Integration Hub.
- Implementation of custom integrations between ServiceNow and other systems for seamless data flow.
- Migration of existing data
- Implementation of security measures for better access management.
- Design and development of mobile applications in ServiceNow.
- Training and continuous support for customers.

MANUEL ALONSO

FRONTEND DEVELOPER
